

Story of a T-shirt

Washing clothes

Step 1

Check the care label.

This is the temperature I need:

Step 2

Sort your washing.

Collect similar colours and types of fabrics

Step 3

Pick your washing detergent and softener.

Step 4

Put your dirty clothes in the machine.

I'm using a pod. This goes in the machine with the clothes.

Step 5

Close the door securely on the machine.

Step 6

Measure your softener.

Step 7

Pour the softener in the drawer.

Step 8

Look at the washing programmes.

I need a coloured cotton programme.

Step 9

Turn the dial to the correct number.

I need programme 3.

Step 10

Turn the dial to the correct temperature.

I need 40°.

Step 11

Next switch the machine on.

Step 12

Then start your programme.

Step 13

This wash will take 1 hour and 30 minutes.

Step 14

Now my washing has finished.

Step 15

Take the clean, wet clothes out of the machine.

Step 12

Here's my clean blue t-shirt hanging out to dry
