## 1.0 Importance of Student Involvement and Learner Voice

Effective and meaningful student engagement is central to providing an outstanding learning experience and a culture of continuous improvement across college. The college aims to ensure that learner voice mechanisms are learner led, fully integrated throughout the organisation and reflective of our multi-site operation and the evolving support needs of our current and future cohorts.

For our students the benefits include:

- a more responsive, more engaging, higher quality offer
- empowerment to help shape their own college experience
- improved outcomes for more learners
- development of specific expertise and independence e.g. self-advocacy skills, citizenship, teamwork
- feeling more involved and motivated to put something back into the College either during their time as a student or in the future

For Derwen College the benefits include:

- increased participation, retention, progression and achievement
- better quality of information about the students' perspective, which can be used to triangulate other sources of data and inform quality- improvement activity
- better informed decision making about resource allocation and investment
- better informed strategic planning

Effective Student Involvement is also:

- a key characteristic of an Ofsted Outstanding college
- creates a college community where students' opinions are listened to, valued and responded to

## 2.0 Derwen College approach

The college works hard to ensure that student involvement is embedded throughout the organisational culture.

We aim to promote a culture where:

- students are motivated and supported to give constructive feedback
- they see their feedback is taken seriously and results in appropriate change
- staff have the skills and resources to encourage and respond positively to feedback
- there are measurable outcomes that show the impact that student involvement has had on the life of the college

The effectiveness and impact of student involvement and learner voice is reviewed annually under five headings:

- 1. Involvement of students individually to ensure responsiveness to individual needs
- 2. Involvement of students collectively to ensure student participation and representation
- 3. Ongoing development of the organisation to ensure a culture of learner led involvement
- 4. Involvement of students in a range of community, citizenship or other enrichment activities in or outside the college
- 5. Ensuring that Learner Voice is integral to the College's decision-making processes

Improvement activities, identified through review, are outlined and monitored through the Student Involvement and Learner Voice Strategy.

The following are example activities under each area:

## Area One: Involvement of students individually to ensure responsiveness to individual need
